- 4- El Rabia Suliman
- 5- Izz El Dain Abdel Alla Abdel Karim

The attackers looted belongings of the villagers, this attack came during the rainy season when villagers are working in their farms, this area suffered from very bad harvest last years and now facing severe shortage of food as most villagers are relying on trees leaves to keep alive. The increase level of violences in these areas led to mass displacement to the main towns at the time when there is no support provided to the Internally Displaced People (IDPS) with the cost of prices of essential commodities raised due to blockade of most of the roads leading to the area due to the fighting in While Nile and Sinnar states, and the deteriorated economic situation as Sudanese currency lost 70% of its value since April 2023.

We strongly condemn these attacks on innocent civilian and urge the authority protect them.

We also urge to two warring parties SAF and RSF to immediately reach secession of hostilities and allowing the movements of goods and humanitarian assistance.
